The Big Rigs Roll Back Into Perth

The 2015 Perth Truck and Trailer Show is shaping up to be the highlight of the WA transport industry calendar.

“This show is going to be the transport industry’s largest exhibition for 2015” said Show Director, Peter Woods. “It’s the only automotive show that books out the entire Perth Convention Exhibition Centre, which makes it a must see event for industry insiders and truck enthusiasts”.

The biggest names in transport will be on show, displaying new products including prime movers, trailers, engines and accessories.

“This is a high volume trade event which displays over \$30 million worth of stock and the most up-to-date vehicles, equipment, parts and accessories” said Mr Woods.

In 2013 the biennial show drew record crowds of 12,000 and this year’s event will be no different.

“We’ve already got some of the biggest names in the industry committed for 2015’, said Mr Woods, ‘including Western Star, MAN, Dennis Eagle, Kenworth DAF, Isuzu, Mack, Scania, UD Trucks, Volvo and Foton.”

“In addition to this impressive lineup we have trailer companies exhibiting include Bruce Rock Engineering, HYVA, CIMC, Marshall Lethlean, General Transport Equipment, G&A Lombardi, G&A Lombardi Road West, Graham Lusty Trailers, Howard Porter, Kreuger Transport Equipment and Lucar CargoVan,” Mr Woods said.

The Perth Truck and Trailer show will be held 24-26 July 2015 at the Perth Convention Exhibition Centre.
